

ACCSP Items for GulfFIN

March 19, 2019

New Orleans, LA

Our vision is to be the principal source of fisheries-dependent information on the Atlantic coast through the cooperation of all program partners.

SAFIS eTRIPS/m Reporting

Our vision is to be the principal source of fisheries-dependent information on the Atlantic coast through the cooperation of all program partners.

Mobile Trip Reporting: eTrips/M v 2.0

- Captains Data Entry Tool becoming more flexible
 - Runs on multiple platforms & phones (IOS & Android & Win10)
 - Foundation for redesigned tool - numerous improvements
 - Will eventually allow Partner specific configuration on the fly
 - Targeted to be in production mid-March
- Provides ability for enhanced gear attributes for COMMERCIAL trips (requested by SEFSC)
- Provides additional fields for FOR-HIRE trips (requested by SERO)
- Trip Notifications (Hail-out) in development for June

Create New Trip

Trip Setup

Trip Type: Commercial

Vessel: LOBSTER VESSEL (test)

Permit: (MA) MAFISHER (Commercial)

Trip Details

Trip Type: Commercial

Trip Name: trip on sunny day

VTR #: 119031116

Crew Count: 8

Trip Activity: Fishing Trip With Efforts

Port: Bristol (County) (Bristol), RI

Notes: taking a trip on a nice sunny day

Effort Details

Primary Area Fished: State Waters Inshore

Waters Fished: MA 514 - 105- NORTH SHORE

Gear Type: HOOK AND LINE

Gear Quantity: 4

Bait type: Predominant species used as bait (ITIS code)

Bait used: NO

Comments: Comments or uncoded data

Start Your Trip

Trip Tracking: Do Not Track

Enter data for a trip you've already completed

Trip Start Date: Mon 3/11/2019

Trip Start Time: 4:18 PM

Trip End Date: Mon 3/11/2019

Trip End Time: 4:28 PM

Hours fished in first effort: 3

Recreational Program

Our vision is to be the principal source of fisheries-dependent information on the Atlantic coast through the cooperation of all program partners.

For-Hire Validation Methods Workshop

- Purpose: Evaluate the minimum requirements and implementation challenges for a future comprehensive for-hire data collection program, focused on data validation, estimation, and recommend next steps. The supporting components of a comprehensive program may vary regionally but should provide for coverage of all for-hire fishery participants.
- Audience: National representatives of fishery survey design, data collection, and estimation. Participants should include Federal, Commission, Council, and States involved in production of recreational fishing statistics.
- May 22-23, 2019 (St. Petersburg, FL)

Workshop Terms of Reference

- 1) Characterize methodologies of current For-Hire Fisheries data collection
- 2) Recommend issues to be addressed in separate For-Hire Telephone Survey Peer Review
- 3) Recommend minimum required elements/components of for-hire data collection design combining mandatory reporting and dockside sampling
- 4) Provide direction on use of catch estimation approaches

MRIP APAIS Tablet Based Data Collection

- For State Fields Staff use

- North Carolina Production : Jan 1, 2019 ✓
- Headboat Testing: Jan-Feb 2019 ✓
- Mass – Georgia Production: Mar 1, 2019 ✓
- Maine & New Hampshire: May 1, 2019

Sat 12/22/18 11AM - 5PM	Interviewer: (7648)
Private Rental State: 45 County: 043	Control: 4558575
Sat 12/22/18	Interviewer: (7648)
Headboat State: 45 County: 031	Control: 4523514
Fri 12/21/18 8AM - 2PM	Interviewer: (7648)
Shore State: 45 County: 051	Control: 1305633
Thu 12/20/18 11AM - 5PM	Interviewer: (7648)
Shore State: 45 County: 051	Control: 1605632

+

Deployment of the Dockside Interceptor APAIS Tablet

- Tablet data collection for 11 Atlantic States in Wave 2
 - Auto download of assignments by interviewer
 - Works offline during field assignments
- Paper submissions stopped completely
- Most manual corrections unnecessary
- Angler Intercept to Electronic data much faster
 - Paper 15-21 days
 - Tablet 1-4 days, most submit next day

2018 PAPER PROCESS: 15-21 DAYS

2019 TABLET PROCESS: 1-4 DAYS

User

Experience So Far (Jan1-Mar8, 2019)

- 429 site assignments, all uploaded successfully on time (within 4 days)
- 418 interviews obtained on 134 assignments
- Staff getting comfortable with tablet data collection
- Saves considerable time in data handling
 - NC Staff: 20 hours/week mailing & reviewing paper forms
- ACCSP continues to make software adjustments to improve efficiencies

FHTS CATI Tool for State Conduct

- Computer Assisted Telephone Interview (CATI)
 - Developed with MRIP support
 - Integrated into the online APAIS Application
- NC noted process was more efficient - even in first weeks of implementation (January)
- Being used by ME, NC, GA in 2019
- Potential to be used by ME through GA in 2020

Data Warehouse Updates

Our vision is to be the principal source of fisheries-dependent information on the Atlantic coast through the cooperation of all program partners.

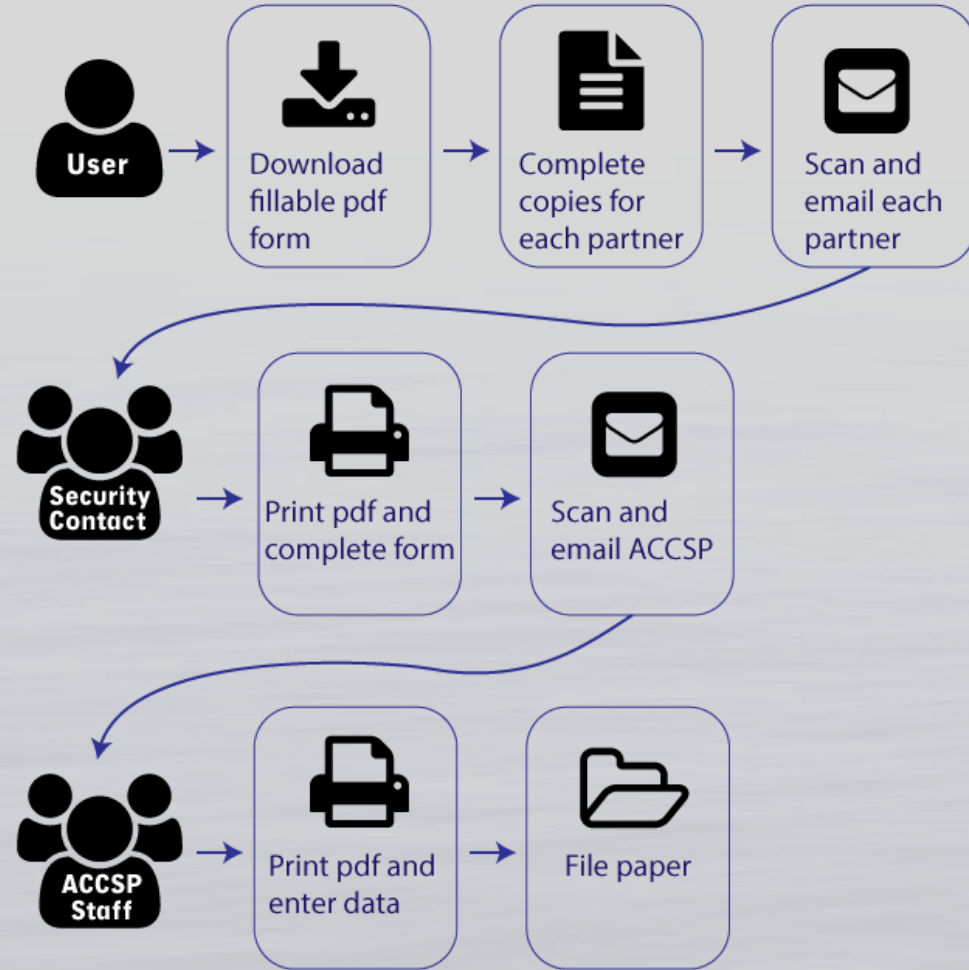

Data Update

- Spring Commercial Landings
 - On schedule for data release mid to late April
- Standardizing species common names
- Data Warehouse Enhancements
 - Improvements made to confidential account application
 - Account management interface created for security contacts

Modernizing the Confidentiality Approval Process

OLD CONFIDENTIAL PROCESS

NEW CONFIDENTIAL ACCOUNT PROCESS
