

# Fisheries Information Network (FIN) Report

## Gregg Bray

Commission Business Meeting  
Gulf Shores, AL  
March 11, 2020

# Fisheries Information Network

- 2019 ongoing work included:
  - Recreational landings sampling
  - Commercial Trip Ticket Programs
  - Biological Sampling for Ages and Lengths
  - GulfFIN Program and Data Management System Administration

# Fisheries Information Network

- Additional Accomplishments:
- Assisted FLFWC with swipe card project
- Research on shrimp commercial conversion factors
- Completed two projects to improve FIN Data Management System
- Provided data for three Federal stock assessments

A vertical photograph on the left side of the slide shows a person standing in a small boat on a body of water. The person is wearing a light-colored shirt and shorts, and is holding a long pole that extends across the water. The background is a bright orange and yellow sunset sky. The water is dark with some reflections.

# 2020 Highlights

- \$6.3M in GulfFIN funding
  - Ongoing activities
    - Administration of FIN
    - Recreational sampling
    - Commercial trip tickets
    - FIN Data Management System
    - Biological Sampling (funded through secondary grant)
  - Transitioning to tablet data collection tools for MRIP APAIS
  - Determining role in fish descender device project
